COMMITTED TO  
**SIMPLY DOING MORE**  
FOR DENTAL PROFESSIONALS

# Welcome to Straumann Academy

## From innovation to education

As a global leader in implant dentistry and oral tissue regeneration in the past 45 years, Straumann is proud of our reputation for purpose-driven innovation, clinical excellence and reliability.

We strongly believe that Training and Education are of utmost importance to the success of our customers and the well-being of their patients. With the establishment of a new regional headquarters in the Asia Pacific region, Straumann is proud to present the Straumann Academy.

Straumann Academy is dedicated to strengthening Straumann's partnership with dental professionals by offering exceptional education to meet your clinical and practice building goals.

Based on the SAC concept developed with our global academic partner, the ITI, the courses are designed for various customer groups (e.g. surgeons, prosthodontists, general practitioners, nurses, technicians) and for all levels of competence. The curriculum is built on the ITI consensus guidelines, which themselves are based on clinical science, with the goal of teaching the skills needed to provide the best possible treatment for each situation. The syllabus of continuing education helps to ensure the safety of patients and the success of customers.

The teachings on most of our courses is provided by ITI specialists and internationally renowned speakers and is in collaboration with well-known universities. Our Training and Education team grew correspondingly to enhance your education experience.

As in previous years, the number of customers trained in our courses continued to expand. The biggest increases were in the Asia/Pacific Region (+27%). We will continue to invest in education, offering additional courses throughout the coming year to meet the growing requirements of the dental community and to provide more people with access to the standard of care in tooth replacement.

We look forward to welcoming you to Straumann Academy, and to making this an instrumental part of your professional development.

## **Straumann Introduction course – by Dr Marlene Teo**

Date : 29th June 2011 ( Wednesday)

Time : 6.30pm to 9.30pm

### **SPEAKER**

**Dr Marlene Teo ( Singapore)**  
Adjunct lecturer, NUS  
Periodontist, TP Dental Surgeons Pte Ltd

Dr Marlene Teo graduated from the National University of Singapore in 2000, where she was the only 6<sup>th</sup> dental graduate in its 63-year history to be awarded BDS Honours. Throughout her course of study, Dr Teo was awarded a total of 11 academic and clinical medals, including the Lee Kuan Yew gold medal, the Tratman Silver Medal and the Dr FAC Oehlers Gold Medal. Dr Teo subsequently obtained her Masters in Periodontology from the University of North Carolina at Chapel Hill where her Masters' thesis was selected as one of four finalists in the prestigious Orban competition, during the American Academy of Periodontology meeting in San Diego 2006. For the same thesis, Dr Teo was also awarded the North Carolina-AADR Turner Research award in 2006.

Dr Teo is a diplomate of the American Board of Periodontology and maintains a clinical practice limited to Periodontics and Dental Implants at TP Dental Surgeons Pte Ltd. She is an ITI Fellow and currently holds a joint appointment as Adjunct lecturer at the National University of Singapore and Adjunct Assistant Professor at the University of North Carolina, Chapel Hill
